

ORGANIC PUREES

We have our own range of Organic Frozen Baby Food Purees, these are totally additive and preservative free. Our nutritious baby purees are steam cooked to preserve all nutrients, they are then frozen to preserve the natural flavours and colours. We have a range of purees from 4 months to 1 year plus. Our product range will vary depending on season and availability of ingredients. Each box of puree comes in a variety of three different flavours making a total of 20 conveniently sized cubes, each weighing approximately 36 grams.
